

DOLL  
COMPANY

1996

Robert Bonner

All of The Dolls in this catalog have been sculpted and designed by award winning artist and former fashion designer, **Robert Tonner**. Mr. Tonner is the president of the *National Institute of American Doll Artists (NAIDA)* and is the recipient of over twenty doll industry award nominations. The dolls in this 1996 catalog alone have received seven nominations. **Tonner** dolls have been featured by *People Magazine*, *CNN*, the *Associated Press* and other national media. Most of the dolls in this catalog feature hand painted eyes and are either full body porcelain or full body vinyl. The clothing for each doll features specially selected fabrics and are carefully fashioned to enhance the beauty of the sculpt. We hope you enjoy these dolls as much as we enjoy making them.

# Betsy McCall™

Collectors Doll

For the past 35 years, various doll manufacturers produced many versions of the *Betsy McCall*™ doll. Now, *Betsy* has been reintroduced as a high quality vinyl and porcelain doll especially for collectors. *Betsy* was sculpted and designed by award winning doll artist *Robert Tonner*. She is a new interpretation that captures the innocence and imagination that was *Betsy* in the 1950's. We hope you enjoy her and her accessories as much as we do. *Happy collecting!*
